Important Note				
Determining how the corrosivity categories and indicative environmental conditions outlined in Table A apply to a specific area is complex. Table A must not be taken as professional advice. Table A is provided as an indicative guide only. It is strongly recommended that contact be made with your supplier to discuss the various factors that may influence the environmental conditions a Fastener is intended to be used prior to purchase to ensure that the most appropriate Fastener and coating is chosen.				

Sure-Guard 5 (SX5) coated products installed in ISO 9223 Category 5 environmental conditions warrant the structural integrity of the screw for the listing period, superficial staining may occur.

This warranty is not transferable to a subsequent customer if the Fastener is sold by the original customer during the warranty period.

Trufast reserves the right to replace any defective Fastener with a fastener screw product of similar quality, grade and composition where an identical fastener screw product is not available.
